

MSCC 2014 Chairs' Welcome

On behalf of the Organizing Committees, it is our pleasure to welcome you to the *2014 ACM International Workshop on Mobile Sensing, Computing and Communication - MSCC'14*. This workshop is held in conjunction with ACM MobiHoc 2014, Philadelphia, PA, USA, in August 2014. All submissions to this workshop were carefully peer-reviewed by at least two Program Committee members or external reviewers. The submissions have been ranked according to their original contribution, quality, presentation, and relevance to the workshop. Based on the review, six high quality papers were accepted for presentation and inclusion in the proceedings. We aim to attract and bring together researchers working on cloud computing, mobile computing and resource management to share their latest research results. In addition to regular paper presentations, the workshop also features one Invited Keynote Speech delivered by Peng-Jun Wan, Professor from Illinois Institute of Technology.

The organization of this workshop would have been impossible without the valuable help of many dedicated people. First of all, we would like to take this opportunity to thank all the authors for their submissions. We also kindly thank all the members of the Workshop Program Committee who shared their valuable time and made a great effort in providing us reviews on time. Special thanks go to Prof. I-Hong Hou and Prof. Srinivas Shakkottai, the Workshop Co-Chairs of MobiHoc 2014, for their support.

We hope you will find the workshop interesting and exciting. We wish you an enjoyable stay in Philadelphia!
